CLASSEQ

Goodbye pre-rinsing

# WELCOME EFFORTLESS HYGIENE

Australia's cafes have come a long way from just a place to grab a quick coffee and sandwich. They have evolved into an extended dining experience, offering diverse menus and table service.

Cafes serve multiple purposes, from our morning refuelling stop to weekend brunch spots, coffee meeting hubs, business lunch venues, after-school treat destinations, and our preferred option for routine breakfasts. They are an integral part of our daily routine.

As a result, cafe owners require world-class solutions to streamline their operations as customer expectations grow. Efficient solutions are essential for cafes to ensure seamless service, from order management to dishwashing.

---

*This is where Winterhalter and Classeq come in.  
As cleanliness experts, we play a crucial role in meeting  
hygiene requirements.*

---

Mrs Jones The Baker, NSW

## Why Winterhalter and Classeq?

### WORLD-CLASS DISHWASHERS:

At Winterhalter and Classeq, our sole purpose is on designing and manufacturing warewashing solutions. Our warewashers are meticulously engineered to meet the highest standards of cleanliness and hygiene, ensuring your venue operates with exceptional efficiency and reliability.

### VERSATILE CLEANING EXCELLENCE:

Winterhalter and Classeq dishwashers are the cornerstone of our offerings, designed to meet the diverse demands of cafes and coffee roasters. They tackle the toughest challenges, from baked-on coffee residues to stubborn lipstick marks ensuring that your glassware and crockery are spotless.

### EFFICIENCY AND RELIABILITY:

Our products streamline your processes, reducing operational challenges and maintenance hassles. You can trust Winterhalter and Classeq to keep your cafe running smoothly.

# CLASSEQ

LeBajo Milkbar, VIC

In the bustling world of cafes, where seamless operations and impeccable service are paramount, **Classeq machines emerge as the perfect solution.**

## MEET CLASSEQ

### 01. Simplicity meets efficiency:

Classeq machines boast user-friendly interfaces, ensuring your cafe staff can effortlessly navigate through operations. With straightforward programs, these machines simplify the dishwashing process, allowing your team to focus on delivering exceptional customer service.

### 02. Consistent results every time:

Say goodbye to the inconsistency often associated with dishwashing. Classeq machines deliver reliable results, ensuring that each dish, glass, or cup emerges spotless and ready for service. Your customers deserve nothing less than perfection, and Classeq delivers precisely that.

### 03. Compact design, maximum impact:

Space is a precious commodity in a bustling cafe. Classeq machines feature a compact design, maximising efficiency without compromising on performance. They seamlessly integrate into your kitchen, creating a more organised and functional workspace.

### 04. Built to last:

Investing in Classeq is investing in durability. These machines are built to withstand the demands of a busy cafe environment, ensuring longevity and consistent performance over time. It's a reliable partner that stands up to the rigours of your daily operations.

# UNDERCOUNTER DISHWASHER (D500 – D500DUO)

Classeq's Undercounter dishwasher is an excellent option for small cafes looking for a space-saving solution. It's available in both the Standard D500 and D500DUO models. The D500 model is user-friendly and efficient, with three quick wash programs that ensure impeccable hygiene while cleaning dishes. It can clean up to 540 plates per hour and accommodate 18 full-sized plates, maximising operations while saving space and costs.

The D500DUO model, which mirrors the standard model, features rinse booster pumps and double-skinned construction. It's adaptable with a water softener, making it an excellent choice for cafes in hard water areas.

*The D500 series is the top choice for compact, bustling venues.*

## Product Benefits

**COMPACT SIZE**  
Designed to fit in even the smallest spaces.

**VERSATILITY**  
Designed for maximum economy, this machine can wash anything from glasses and cutlery, to crockery and utensils.

**USER-FRIENDLY**  
Two-button operation and colour-coded progress.

**RELIABLE EFFICIENCY**  
The small machine can clean up to 540 plates per hour.

**3 WASH PROGRAMS**  
The machine offers three programs: light (2 minutes) for lightly soiled dishes, standard (3 minutes) for daily use, and intensive (5 minutes) for heavy cleaning.

**ALL-ROUND SOLUTION**  
Made to wash everything from glassware to heavy-duty pots and pans.

## UNDERCOUNTER GLASSWASHER (G400 – G400DUO)

If you're looking for a specialised glassware cleaning solution for your cafe, consider an Undercounter glasswasher. Classeq offers two models that can ensure sparkling glassware in just two minutes. These glasswashers are perfect for swiftly cleaning coffee-stained glasses, milk jugs, bottles, and mugs. They're user-friendly and compact, fitting easily under your coffee machine, and can wash over 450 glasses per hour.

The G400DUO model, which mirrors the standard model, features rinse booster pumps and double skinned construction. It's adaptable with a water softener, making it an excellent choice for cafes in hard water areas.

*The G400 series is designed to simplify operations for cafes seeking efficiency.*

### Product Benefits

**COMPACT SIZE**  
designed to fit in even the smallest spaces.

**TWO EFFECTIVE WASH CYCLES**  
That guarantee spotless glassware after a single wash.

**3 WASH PROGRAMS**  
The machine offers three programs: light (2 minutes) for lightly soiled glasses, standard (3 minutes) for daily use, and intensive (5 minutes) for heavy cleaning.

**RELIABLE EFFICIENCY**  
The glasswasher can clean up to 480 latte cups per hour.

**USER-FRIENDLY**  
One button operation LCD display.

**PRACTICAL**  
G400 series features a drain pump. The G400DUO comes with a rinse booster pump and double-skinned construction, guaranteeing exceptional wash results.

# PASSTHROUGH DISHWASHER

## (P500 – P500DUO)

If you're running a busy cafe and need an affordable and high-capacity dishwasher solution, consider Classeq's Passthrough dishwasher. It comes in two models so that you can choose the best setup for your kitchen. This dishwasher is designed to clean large volumes of dishes, with a quick 5-minute wash cycle and the ability to clean up to 720 plates per hour. Loading and operating the dishwasher is simple, with a removable basket to guide wares into the machine.

You can easily monitor the cleaning process with the colour-coded display. Plus, the P500 series includes continuous hood cleaning, making maintenance a breeze.

*Overall, the P500 series is the perfect choice for cafes with high dishwashing demands.*

## Product Benefits

### RELIABLE EFFICIENCY

Designed to outperform any other commercial dishwasher, the Classeq passthrough dishwasher can wash 720 plates per hour.

### MAXIMISED HYGIENE

All machines feature a primary and secondary filter system to safeguard hygiene.

### USER-FRIENDLY

One button operation LCD display.

### 3 WASH PROGRAMS

The machine offers three programs: light (2 minutes) for lightly soiled dishes, standard (3 minutes) for daily use, and intensive (5 minutes) for heavy cleaning.

### MAXIMISED ECONOMY

The glasswasher can clean up to 480 latte cups per hour.

### PRACTICAL

The P500DUO has rinse booster pump, guaranteeing exceptional wash results.

# winterhalter

STUDLEY PARK BOATHOUSE

Studley Park Boathouse, VIC

Winterhalter emerges as the ultimate solution to propel your operations to new heights in the heart of a bustling cafe, where efficiency is non-negotiable. As the epitome of cutting-edge dishwashing technology, **Winterhalter is tailor-made for busy cafes that demand nothing short of excellence.**

## MEET WINTERHALTER

### 01. Say farewell to the time-consuming pre-rinsing ritual:

Winterhalter redefines dishwashing by eliminating the need for tedious pre-washing, allowing your staff to focus on what truly matters – delivering an exceptional dining experience.

### 02. Lightning-fast cycles:

In the fast-paced world of cafes, time is of the essence. Winterhalter's rapid cycles ensure your dishes are impeccably cleaned and ready for service in record time. It's efficiency without sacrificing quality.

### 03. Customisation at your fingertips:

Adapt to the diverse needs of your cafe seamlessly. Winterhalter allows you to customise cycles with a button, handling everything from morning coffee cups to delicate wine glasses. Versatility that meets the demands of your dynamic menu.

### 04. Space-efficient design:

Busy cafes thrive on maximising every inch of space. Winterhalter's compact design seamlessly fits into your kitchen layout, contributing to an organised and efficient workspace without compromising performance.

### 05. Beyond coffee cups:

Winterhalter is not just about coffee cups – it's a multifaceted solution. It efficiently handles various items, from saucers to cutlery, ensuring your entire tableware is impeccably cleaned. It's the all-in-one solution your busy cafe deserves.

### 06. Energy-efficient:

Join the energy efficiency revolution without compromising on quality. Winterhalter is designed with energy efficiency in mind, contributing to a more sustainable cafe.

### 07. Application-specific chemicals and accessories:

Specially designed chemicals and racks cater to the unique demands of every venue, ensuring spotless results while preserving tableware longevity. From coffee cups to delicate glassware, our thoughtfully engineered solutions provide a customised approach that adapts seamlessly to diverse applications.

# UNDERCOUNTER GLASSWASHER & DISHWASHER (UC SERIES)

If you're running a cafe or a coffee roastery, you know how important it is to have clean dishes ready for your customers. The Winterhalter Undercounter machines are top-of-the-line, ensuring that your dishes are clean, hygienic and cost-efficient. The UC Series from Winterhalter is designed to be user-friendly, with a smart touch display and intuitive controls. It's also easy to maintain, so your staff can confidently operate it. These machines are available in four sizes, with various optional accessories to cater to your needs. If you want to go above and beyond, the UC-Excellence machines utilise reverse osmosis to eliminate the need for hand polishing. This saves you time and money, making it an even more practical choice for your venue.

*Winterhalter's UC Series Undercounter warewashers are the perfect fit no matter the size of your cafe or coffee roastery.*

They can be placed in the front of the house or the kitchen, seamlessly fitting into your space. With their versatility and reliability, you can be sure they'll be an indispensable part of your operations.

## Product Benefits

### ECONOMICAL AND EFFICIENT

The S-shaped wash field ensures efficient water distribution, reducing water consumption, electricity usage, and chemical costs, making it cost-effective.

### CUSTOMISED SOLUTION

The UC Series offers tailored models for various cafe needs, whether it's glass, dish, cutlery, bistro, bottle, or plastic cup washing, with adjustable settings to match your requirements.

### USER-FRIENDLY

The UC Series is designed with a user-friendly smart touch display, intuitive controls, and removable wash fields. It is easy to maintain, ensuring your cafe staff can operate it effortlessly.

### PERFECT WASH RESULTS

The UC Series guarantees sparkling, hygienically clean, and spotless results, meeting the highest hygiene standards with a DIN SPEC 17735 certificate.

### POLISH-FREE EXCELLENCE

UC-Excellence machines use reverse osmosis to prevent mineral and limescale deposits on glassware, dishes, and cutlery, eliminating the need for hand polishing, saving time and money.

### SPACE SAVING

Integrated detergent and rinse aid containers are incorporated within the machine, maximising space efficiency.

# PASSTHROUGH DISHWASHER (PT SERIES)

The Passthrough dishwasher, aptly named the "Workhorse", is engineered to meet the relentless demands of cafes and coffee roasters. Available in three compact sizes, the PT Series dishwasher is designed for continuous, rigorous operation over extended periods.

The PT Series dishwasher seamlessly combines volume and customisation. It is a versatile workhorse for various wash items, making it an ideal choice for cafes and coffee roasters. Whether you need it for standard dishwashing or prefer to configure it as a cutlery, bistro, or glass washer, the PT Series adapts to your needs.

*With its user-friendly design, efficiency, and compact size, the PT Series is a dependable partner when the dishes start piling up in your busy cafe or coffee roastery.*

PT-M

PT-L

PT-XL

## Product Benefits

### FIRST-CLASS WASH RESULTS

The PT Series ensures certified cleanliness and hygiene, even for stubborn soiling such as baked-on coffee residues, stubborn lipstick marks and frothy foam.

### COST-EFFECTIVE

Minimises operating costs through low water and energy usage, as well as minimal chemical consumption.

### ENERGYPLUS

Optional exhaust air heat recovery system for enhanced energy efficiency, including a waste water and exhaust air heat exchanger.

### ABSOLUTE RELIABILITY

The PT Series is backed by Winterhalter Australia service technicians.

### VARIABLE WASH PRESSURE ADJUSTMENT

VarioPower adjusts wash pressure for different items and dirt levels. Delicate items get gentle treatment with low pressure, while tough dishes get a thorough clean with high pressure.

### SIMPLE TO USE

It offers an intuitive and straightforward design, ergonomic handling, and practical functionality, making washing tasks easier for your staff.

### FILTRATION SYSTEM

Quadruple filtration system ensures continuously clean tank water.

# COMPACT RACK CONVEYOR DISHWASHER (CTR)

The Compact Rack Conveyor Dishwasher (CTR) is the perfect dishwashing solution tailored for the hustle and bustle of a busy cafe. Designed with compact dimensions, it addresses the spatial constraints of a cafe kitchen, ensuring it seamlessly fits into limited spaces. Speed is essential during peak hours, and the CTR delivers with high washing performance, capable of handling up to 195 racks per hour. Its modular design allows for precise customisation, efficiently meeting individual requirements and demands.

Beyond its compact size and speed, the CTR ensures economical operation, lowering consumption and operating costs. With maximum hygiene safety and

remarkable flexibility, the CTR becomes the go-to choice for cafes catering to 100 to 400 diners.

*Transform the impossible into reality – choose the CTR and elevate your cafe's dishwashing efficiency to unprecedented levels.*

## Product Benefits

### RACK CAPACITY

The CTR delivers an impressive rack capacity but with compact dimensions: With a transport speed of up to 195 racks per hour, it can handle a high volume of dishes during peak times.

### FLEXIBLE

The CTR is based on a modular system and can be customised to precisely meet your individual requirements, even for confined spaces.

### TANK EXCHANGE

the CTR offers a partial or full regeneration of the tank water. Without activating the intensive self-cleaning programme, the tank water is replaced within shortest time, so that the machine is very quickly ready to operate again.

### COST-EFFECTIVE

Winterhalter's CTR maximises efficiency whilst minimising cost. Not only has the water consumption of the CTR lowered to 130L/hr on 100% utilisation, but customers are also offered the option of the Energy exhaust-air heat recovery system. By utilising energy dissipated during the wash process, the Energy system reduces the environmental impact and operational costs of the CTR whilst improving the kitchen climate.

### HYGIENE MODE

If the tank or boiler temperature fall below the target value, the machine automatically reduces the transport speed.
